EVOLUTION

IN TRANSPORT

COMPANY PROFILE

Our business is in international forwarding and logistics

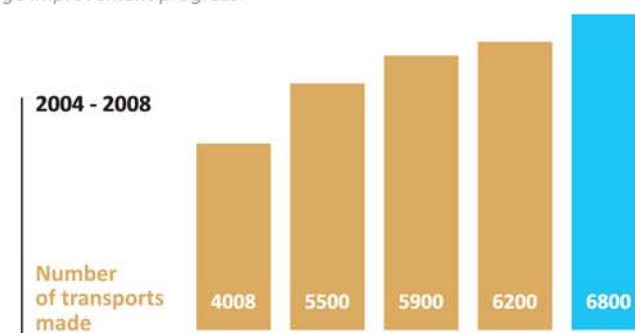

What services can we offer?

We specialise in proposals of the best effective transport solutions per your requirements

We have been in the transport service business since 1996 as a solely Czech forwarding company. Our profound activities have resulted in a strong position in the freight and transport market even beyond the territory of the Czech Republic. We are one of the stable transport leaders with firm capital base and increasing transported volumes as well as market share.

Graph:
Haulage improvement progress

- national and international forwarding
- transport of shipments in any size and weight, complete truckloads or groupage shipments
- transport of hazardous and oversize loads

EVOLUTION ON THE RAILWAY

Our goals are clear

We aim for your benefit and effectiveness

- complete customer service, maximum simplification of client's role
- optimum transport solutions to comply with requested deadlines, shipment type and tariffs
- accomplishment of agreed deadlines and compliance with agreed terms and conditions
- winning satisfied customers who use our services regularly

Quality is our top priority

- We possess the quality control certificate in the field of International and National Forwarding in compliance with ISO 9001:2000.
- We cooperate exclusively with partners of sound quality and proven practices. We are a member of the Forwarding and Logistics Association of Czech Republic, the ČESMAD Association, the Chamber of Commerce, we cooperate with government organisations and the Czech Trade agency.
- We lay great emphasis on development of IT in the field of international and national transport.
- We have developed our own multi-functional organisation system- the MOS using the fixed internet connection line to enable synchronisation of data within any of our branches with the central office. Our customers therefore benefit from reception of any real time transport data just in time.
